### **History**

This document was retyped from a document with the file path  
G:\Margaret\2005\Legislation\Index of model by laws Regs doc.

A meeting in 2005 was called with the EDPH , Michael Jackson Jim Dodds, Sylvia Griffiths, Mary Adam Trevor Davies and Simon Dennis to allocate a 1,2,or 3 score to the regulations with the aim of sorting and prioritizing which regulations would get reviewed.

The Metropolitan Managers of Environmental Health Group (MMEHG) met and consulted on a legislative review programme and submitted this to the DoH.

Numerous discussion and input over the years from within the Environmental Health Directorate and Local Government including meetings, correspondence, personal interviews and discussions also provided input into this process.

Food Act/Regulations to check are reviewed as part of transitions to new Food Act 2008 and Regulations  
Health (ANZ Food Standards Code Adoption) Regulations 2001  
Health (food Hygiene) Regulations 1993  
Health (Food Standards) Administration Regulations 1986

Health (Pet meat) Regulation 1990  
Health (Meat Hygiene) Regulations 2001

Not all Health ... regulations were ID and categorized. Any food type regulations were left out assuming these would be addressed through the new Food Act and associated regulations. This will be confirmed. Any Health (drug or medical ) type regulations were not captured either as these are not administered by EHD.

Below is a list of Health .... Regulations that were ID that are not the responsibility of the EHD
